

Abbey School

Non-Disclosure Statement – Text based systems to Parents/Carers

Dear Parent/Carers,

Abbey School uses Primary Contact service to contact Parents/Carers via a text message to your personal device.

We believe that this is an essential way to contact you regarding school events and also in the case of emergencies e.g. school closure due to bad weather.

The service is provided by Primary Contact Company and in order to use the text based system, we have to share your mobile number with this company.

The service level agreement we have with this company ensure that they adhere to the Data Protection Act (1988).

By submitting and using the School provided text based system you are giving explicit consent to use the number provided and share this with the solutions provider.

If at any point you would like your number to be removed from the text based system please inform us in writing with a letter addressed to the Head Teacher or email us at abbeyschool@nexusmat.org if you seek any further information on this matter, please speak to our Head Teacher in the first instance.

Kindest regards,

Luci Windle

Headteacher
