

Abbey School

Non-Disclosure statement – App based systems to Parents/Carers

Dear Parent/Carers,

Abbey School uses Idea Farm service to contact Parents/Carers via an App based solution to your personal device. Access to this application system is available on Android and Apple mobile devices.

We believe that this is an essential way to contact you regarding school events and also in the case of emergencies e.g. school closure due to bad weather.

The service is provided by Idea Farm Company and in order to use the App based system, your preferred email address will be requested during registration.

The service level agreement we have with this company ensure that they adhere to the Data Protection Act (1988).

By submitting and using the School provided App based system you are giving explicit consent to use the email address provided for registration purposes and understand that the email address will be stored securely on our providers cloud platform.

If at any point you would like your email address to be removed from the App based system please inform us in writing with a letter addressed to the Head Teacher or email us at abbeyschool@nexusmat.org

If you seek any further information on this matter, please speak to our Head Teacher in the first instance.

Kindest regards,

Luci Windle

Headteacher
