

## School Governors Wanted

On 1<sup>st</sup> June 2016, three of Rotherham's special schools – Abbey, Hilltop and Kelford – created Nexus Multi Academy Trust. The schools have a very strong ethos of personalisation and family friendly practice, and the 280+ pupils who attend the 3 schools are some of the most engaging children and young pupil you could wish to meet.

In Nexus we believe that the best governance is provided by individuals who are close to the school and who have the time and capacity to work with school leaders and the wider school population to really understand how our work changes lives for the better.

The latest Ofsted Inspection Framework has meant that central government expectations have never been higher. This has in turn raised the expectations of school governors given the vital role they play in overseeing how public money in education is used as well as the best teaching and learning taking place.

**We are now looking to recruit new governors for all three local governing boards. We are seeking people with the skills and enthusiasm to engage in the improvement work of the school and ensure leaders and managers are achieving the best outcomes possible for our children and young people.**

Governors are required to attend between 3-6 meetings per term, working under the leadership of energetic and experienced Chairs. All you need is a keen mind and a desire to ask challenging questions in the interest of improving the life chances of children.

If you are interested in volunteering as a school governor for one of the schools, please submit a letter expressing your interest which includes brief details of your experience and how you intend to make a positive contribution to school governance.

Please submit this to [ceo@nexusmat.org](mailto:ceo@nexusmat.org) or via post to Chief Executive Officer, Nexus Multi Academy Trust, c/o Hilltop School, Larch Road, Maltby, Rotherham, S66 8AZ. There is no closing date for this opportunity, as we always want to have an open door to good and talented governors.
