## Advice to School Community - Positive Covid Case

Dear Parents/Carers,

We have been advised by Public Health England that there has been a confirmed case of COVID-19 within the school this week.

We know that you may find this concerning but are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

Due to the incubation period for this pupil the relevant bus and class have been sent home to isolate. If you are receiving this letter your child does not have to isolate. I can report that the pupil is experiencing mild symptoms.

The school remains open and your child should continue to attend.

### **General Advice - What to do if your child develops symptoms of COVID 19**

If your child develops symptoms of COVID-19, they must not come to school and should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119.

All other household members who remain well, must stay at home and not leave the house for 10 days. This includes anyone in your 'Support Bubble'.

Further information is available at: <https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

The 10-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home.

If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 10 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

**Symptoms** Charter C

Abbey School, an Academy within Nexus Multi Academy Trust. A Private Ltd Company. Registered in England & Wales. Company Number: 10075893. Registered Office: Maltby Hilltop School, Larch Road, Maltby, Rotherham, S. Yorks, England, S66 8AZ. A charitable company.

The most common symptoms of coronavirus (COVID-19) are recent onset of:

a new continuous cough

a high temperature

a loss of, or change in, your normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

### **How to stop COVID-19 spreading**

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

#### **Do**

wash your hands with soap and water often – do this for at least 20 seconds

use hand sanitiser gel if soap and water are not available

wash your hands as soon as you get home

cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze

put used tissues in the bin immediately and wash your hands afterwards

### **Further Information**

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Yours sincerely

Mrs L Windle
